

QUALITY POLICY

Pushpagiri College of Nursing is committed to providing value-based, high quality education that fosters academic excellence, professional competence, compassionate care and ethical leadership to empower student nurses with right attitudes, values, character, and skills that mould them to become globally relevant, socially responsible nursing professionals committed to make a difference.

QUALITY OBJECTIVES

1. To implement innovative, student-centered teaching-learning methods ensuring academic excellence and professional competence in adherence to national and international standards.
2. To provide well-maintained and high-quality infrastructure facilities required to foster student learning towards rendering comprehensive nursing care.
3. To promote the holistic development of nursing students by integrating both curricular and co-curricular activities including community based outreach programs.
4. To integrate ethics, respect for life, compassionate patient-centered & value-based care into all aspects of training.
5. To create a student-friendly campus providing efficient support and mentoring services that nurtures positive, creative, productive, and efficient health care professionals empowering them to excel as leaders.
6. To prepare students for global health care roles through strengthening international collaborations and exposures.
7. To encourage faculty towards continuous professional development, higher education, certifications & life-long learning.
8. To promote a culture of research, innovation and evidence-based practice among students and faculty contributing to the body of nursing knowledge.
9. To foster continuous quality improvement through regular quality assessments and feedback systems maintaining compliance with the accreditation and regulatory standards.
10. To ensure effective institutional governance by building strong team spirit, high levels of stakeholder satisfaction and social commitment among students and staff.
