

ABOUT THE COLLEGE

Pushpagiri College of Nursing, is one of the first private self-financing nursing colleges in Kerala. The college is affiliated with 678-bedded tertiary care NABH accredited hospital offering comprehensive specialty and super-specialty services. This provides students with exceptional clinical exposure and hands-on training across diverse disciplines under one roof. The college is recognized by INC, KNMC, KUHS and accredited with QAS 'A' grade.

ABOUT THE WORKSHOP

Nursing education in the present era has transformed from basic hospital training into a dynamic, scientifically backed academic discipline. It now integrates high-tech digital tools, evidence-based practice, and competency-based curricula to prepare nurses for complex global healthcare needs.

Nurse educators must prepare nurses for a future that will likely draw on broad trends such as AI integrations and patient-centered care. Embracing these opportunities begins with understanding how they relate to broader, current trends in nursing education and why educational developments are necessary.

This workshop is focusing on assessment, item analysis and modernization in nursing education. It aims to enhance participants' knowledge and skills in non-standardised test construction, assessment and item analysis. The workshop also introduces AI techniques, prompt strategies and digital tools to support smart teaching and strengthen the quality of nursing education.

OBJECTIVES

- Explain the concept of non standardized test construction and assessment.
- Enhance competency in the non standardized test construction and assessment
- Develop skill in interpretation of data in item analysis.
- Apply principles of test blue printing and item analysis for better validity and reliability.
- Explore AI techniques, prompt strategies and digital tool for smart teaching.
